

Implements the CUI Program - establishes policy for designating, handling, and decontrolling information that qualifies as CUI.

Describes, defines, and provides guidance on the minimum protections for CUI physical and electronic environments: destruction, marking and sharing

Emphasizes

Established CUI Program

Executive Agent (EA) to implement the E.O. and oversee department and agency actions to ensure compliance

An open and uniform program to manage all unclassified information within the executive branch that requires safeguarding and dissemination controls as required by law, regulation, and Government-wide policy

Agencies must use NIST SP 800-171 when establishing security requirements to protect CUI's confidentiality on non-federal

The 800-171 framework consists of administrative, technical, and operational security controls designed to focus on protecting the confidentiality of unclassified-but-controlled information. There are 110 separate controls that fall into 14 different control families.

CUI?

The project's proposal announcement guidelines or the research

Yes. Failure to comply may result in contract challenges to, or loss of, research awards and may result in future ineligibility to be awarded contracts from federal agencies.

## Federal Acquisition Regulation

Key: government will identify "what" contained in the project is CUI

Key: FAR
