Just-in-Time Human SubjectsReview Grant Application Signature Page

Many federal agencies will accept the **JiusT** ime InstitutionalReview Board (**R**B) Review. The sponsor's instructions should stipulateRiBlapproval or pending approval is required at the time of proposal submission, or the sponsor acknowledgesptance of Just Time IRB Review.

NOTE: By signing this statement he investigator acknowledges that **B** requirements will be secured before initiation of the proposed project, ruitment of subjects and any datacollection. All investigator subjects are required to submit this signed statement with the university transmittal sheet indicating submission of a grant application the respective agency prior to receiving approval from the RB for a project involving research with human subjects.

Many agenciesprovide a short windowbetweenthe notice of funding and the start date. This windowmaybe too short for normaRB procedures to process the application. If you believe this is true for the agency to which you applied, you may submit a new project application to the IRB Office prior to the notice of unding in order to avoid delays in the start date here will be no exceptions to the regularscheduled RB deadlines because funding is pending or a proposal and is not possible to guarantee IRB approval in advance of the review process.

Investigators whetearn that their proposal maybe funded should submit whetearn that their proposal maybe funded should submit whetearn that their proposal has been reviewed and approved by the IRB and funds will not be released until final human subject's approval has been received.

Does the project include a consortium/subcontract? Yes Doe
--

If yes,	is the c	onsortium/	subcontract	in the	original	proposal?Yes	🗌 No
---------	----------	------------	-------------	--------	----------	--------------	------

If yes, is the consortium/subcontract involve a foreign performance site Yes INO	contract involve a foreign	performance site Yes N	0
--	----------------------------	------------------------	---

I have read and understand the above in £00 mm and will comply with its requirements.
