

**University Sustainability Committee – President’s Conference Room**

3/17/2016 2:00 p.m.

In attendance:

Dr. James Bridgeforth

Dr. Krista Harrell

Victor Cohen

Todd Culp

Jerry Purvis

Dr. Glen Borchert

- Following this news, several committee members then reiterated the need for education on the University's stance on environmental sustainability and how the University, through the committee, is providing its campus with a means to be more sustainable
- One suggestion that arose was to record a thirty second educational/promotional video

As a reminder, one of the focuses moving forward for the committee will continue to be on education and outreach.

- A question that arose was: What do these concepts look like for the committee?
- Of particular importance is consistency in the efforts of the committee; for example, using uniform labeling near multi stream bins throughout campus

Meeting adjourned 3:00 p.m.
